SUMMARY

Experienced in basic programming languages with a knack for problem-solving. Adaptable and resilient, capable of handling pressure in diverse industry settings. Versatile and willing to take on any task, adept at thriving in various situations. Demonstrated ability to work effectively under pressure and deliver results. Skilled at navigating challenges and finding solutions, with a can-do attitude towards any project or assignment. Strong interpersonal skills enable effective collaboration and communication with individuals from all backgrounds.

PROFESSIONAL EXPERIENCE

CodSoft, Data Science Intern

03/2024 – 04/2024

- **Data Analysis:-**Data Science involves analyzing and interpreting large datasets to uncover patterns, trends, and insights that can inform decision-making and drive business strategies.
- **Machine Learning:-**A core component of Data Science is developing and applying machine learning algorithms to build predictive models, automate processes, and enhance data-driven solutions.

Prodigy InfoTech, Cyber Security

03/2024 – 04/2024

- **Hands-on Experience:-**Gain practical skills by working on real-world cybersecurity projects, including threat detection, risk assessment, and implementing security protocols.
- **Professional Development:-**Learn from industry experts, participate in workshops, and build a strong foundation in cybersecurity principles and best practices.

EDUCATION

Bachelor of Engineering, Electronics And Telecommunication, Pune

2022 – 2026

Vidyarthi Griha's College of Engineering & Shrikrushna S Dhamankar
Institute of Management, Nashik

12th, Science, JDC Bytco, Nashik

2020 – 2022

SKILLS

- **Programming Languages:** C, C++, Python, Java, JavaScript
- **Database:** SQL
- **Backend Technologies:-**Spring Boot, RESTful APIs
- **Web Technologies:** HTML, CSS
- **Soft Skills:** Problem Solving, Leadership, Communication, Teamwork

PROJECTS

Bus Reservation System

A simple menu-driven interface built using C++ that allows users to navigate through options like seat booking, viewing availability, and basic passenger inputs. The focus was on creating a clean console-based UI with structured code, user interaction flow, and input validation.

Hospital Management System

A basic hospital management interface developed using HTML and CSS for UI screens and Python for simple backend logic. Includes sections for patient, doctor, and admin modules with clean layout design, organized navigation, and user-friendly page structure.

Portfolio Website

A personal portfolio website created using HTML and CSS to showcase skills, projects, and contact details. Designed with a clean layout, responsive sections, and well-structured content to provide a simple and attractive web presence.

E Commerce Website Clone

Developed an E-commerce clone using Spring Boot with RESTful APIs for product and category management. Implemented CRUD operations using Spring Data JPA and layered architecture. Tested APIs using Postman with GET, POST, PUT, and DELETE requests. Validated JSON responses and ensured error-free API communication.

CERTIFICATIONS

- **Python :-** Government of India
- **C++ :-** Government of India
- **C:-** Government of India
- **Campus Recruitment Training In Java**
- **Campus Recruitment Training In C++**
